Subject: RE: Deadline extension request - Response to EPA comments on the Third Site DNAPL Cell sampling report and response to MM comments

Good afternoon Julie:
The extension of time is acceptable.
Thank you,
Matt

Subject: Deadline extension request - Response to EPA comments on the Third Site DNAPL Cell sampling report and response to MM comments

Matt,

We wish to request a two-week deadline extension for the response to EPA comments and the revised DNAPL Cell sampling report, which is due to EPA this Friday (November 20). We have made significant progress towards incorporating the requested edits; however, the tandem effort required to address McMillan-McGee's comments was significant. We would prefer to submit these documents together, as they are related and, as such, we need some additional time to ensure that we fully respond to all concerns presented on these important documents. Please confirm your acceptance of this request, and we fully appreciate your patience in this regard.

Regards,

Julie
